

In doubt of product of seller = when beyong something that seels off dodgy 
ex: you buy a car in a dodgy place

: you tell the seller "if I find out lafer that this car is someone else's car"

I want a custion that I can go to get my money back from

- here you can be a daamin before the actual contract: usually you can't get a doamin untill the debt is on your neck

when you as a seller suspect the in doubt of money paid by buyer money the buyer gave me:

you can demand a guarafor to go to to get your money from in case the court says that the money I was given was stolen & they take it
